

ROLES

JMU

As the Wind Application Center we facilitate and assist with the development of a small wind project at the school, providing:

- Help with project management and installation logistics
- Help with permitting
- Help finding funding opportunities
- Help to educate students
- Find installer
- Train teachers

HOST SCHOOL

As the Host School, the champion at the school is responsible for:

- Getting School Board Approval
- Getting City/County approval and permits
- Identifying funding sources and writing proposals
- Educating students about project development
- Getting teachers trained on wind energy curricula
- Using the turbine and its data to teach about energy in the classroom

***JMU does not provide the
funds for the turbine!***
